

When God Is Silent

Finding Hope in the Midst of Life

Everyone at some time in their life experiences loss in some form or another. Each loss is individual and very different from anyone else's experience. In the face of adversity, we sometimes want the world to stop so we can catch up, take a breath, find some relief from the hurt. Unfortunately, the world does not stop. There is no laughter - there are only memories and a profound sense of loss that cannot be shaken. And where is God in the midst of all of this?

He sometimes seems far away... This is the album that can help you when God seems silent in the midst of all the chaos.

This album is a carefully selected series of songs that that is designed to help those of us going through tragedy to realize that God is there, He is close and with outstretched arms He is there in all His love to be the comfort, to wrap His arms of love around you. There are songs that help refocus, see anew and see matters from God's perspective when we cannot even see them from our own. This album is designed to be used as a healing guide for a soul in distress.
