

EXPRESSIONS

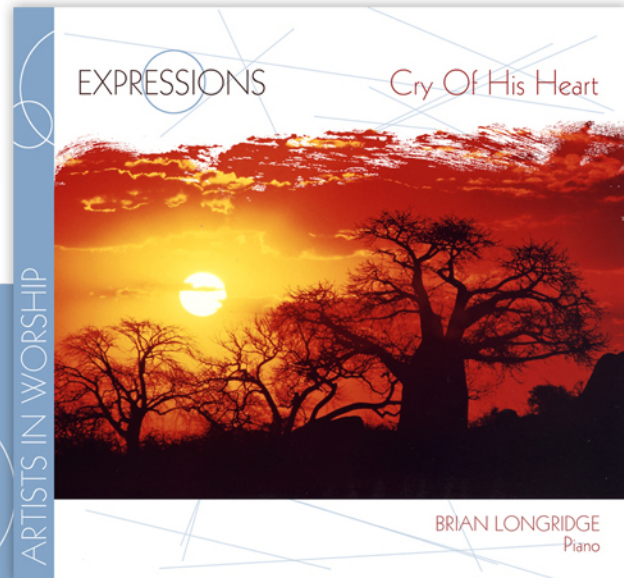

A Heart In Worship - A Musical Offering To God

A series of albums by musicians who write and compose music as a means of worshipping God. Albums that have been nurtured over time and reflect the heart of the musician as he or she offers this personal expression of worship.

The vision for the creation of this series is that the heart of God that inspired these offerings of worship will refresh, renew and comfort your heart and bring you His peace. The breathtaking photography expresses another heart. The heart of a photographer who never fails to be overwhelmed by the beauty of God unfolding before him and then captured through the lens of his camera. As you listen to these albums allow the music to wash over you and create an atmosphere of peace that completes the ambience of your surroundings.

EXPRESSIONS

Music and Art combined as an Expression of Worship.

music and artists in worship

- A high-end series with a global perspective
- The heart of the artist is shared in both the music and packaging
- Original, breathtaking photography weaved together with music of personal worship

Featuring exclusive original photography from South Africa by:

First Things

A light jazz set of original music from New Zealand

Cry Of His Heart

Stylistic piano by a missionary who has worked in India and other countries

Inner Peace

All original piano album from South Africa

I believe that the Lord gave each one of us a unique purpose in life, your unique fingerprint to glorify God. Because we are a living sacrifice unto the Lord it is very important to find out who we are and to do the work we are called for. I know I have found that unique fingerprint. Everything I shoot is through, for- and to Him, the Creator of all landscapes. I always pray that the Lord will be seen and the Holy Spirit be felt by both believer and unbeliever as they look at the artworks. People must only see the Lord, His beauty and His creation, not me. All honour and glory is unto our Lord and Saviour!
